What is the AP test/course about?

AP stands for Advance Placement, and is given by the Collegeboard which also does the SATs. Students don't have to take the AP course in order to take the AP test, and they can also choose to take only the AP course but not the test. There are a variety of AP tests, ranging from sciences to history to languages. AP courses tend to be a lot more difficult than regular or honor classes, with more homework and study required. AP courses tend to be similar to college level classes in difficulty.

Tests are offered once a year, in May. Students can take the AP test as many times as they want, but all scores will be shown to colleges, students cannot choose which score to show.

Why take the AP test/course?

Prepare students for college, college credit (UCs), and looks good on college applications. Because the AP course is an extremely hard course, similar to a college level course, students who take AP courses during their high school years will be more prepared than those who don't when they reach college. Most UCs give credit for taking the AP course, in the form of a boosted GPA. Taking the AP test gives an additional credit, many will give students college course credit. Currently, there is no set amount for the Chinese AP, but usually a score of 3 on a test will earn 4-8 unit credits depending on subject.

How is the AP test structured and scored?

All AP tests have a written section and a multiple choice section. Languages have an addition of a listening and speaking section (usually done through a recording). AP tests are on a scale of 1 to 5:

- 5 Extremely well qualified*
- 4 Well qualified*
- 3 Qualified*
- 2 Possibly qualified*
- 1 No recommendation**

Penalties are given for wrong answers, either ¼ or 1/3 depending on the number of choices. Omitted answers have no penalty, and no points are given either.

What's the difference between the AP and the SAT Subject Tests?

The SAT Subject Tests are similar to the AP tests in the sense that there's a variety of subjects, however, students do NOT receive any course credit or boosts in GPA if they take the SAT Subject test (SAT II). SAT II is used primarily in admission, and is scored differently. SAT II is scored on a scale from 200-800, with 800 being the max, and 200 being the minimum. Students usually take 2-3 subject tests, UCs typically require at least 2. SAT II tests are administered several times a year, and like the AP, can be taken as many times as wished. SAT II tests do not have a course to go along, unlike the AP test. SAT II tests tend to be a lot easier than the AP test, and are all multiple choice. There are also penalties on the SAT II, however, the penalty depends on the subject taken. It is usually a small fraction of a point per answer wrong, with omitted answers having no penalty.

什麼是 AP

AP=Advance Placement 大學先修課程及考試

有不同項目:語言、歷史、生物、物理、音樂、文學、數學、心理學等

在高中修,但不是每個學校都提供所有的課程

比一般高中普通或榮譽課程難度高

學生可以只修 AP課,但不考 AP考試;學生也不一定要修 AP課才能考 AP

在課程方面:沒有數量的限制

在考試方面:考試一年只有一次,在五月份考

沒有數量的限制,但是所有的分數都會留紀錄並送到大學去

爲什麼要修 AP 課

爲學生進入大學修課做暖身(因爲 AP 課通常很難,近似大學課程)

大部分的加大(UCs)會因你修了 AP 課而給你在總成績(GPA)上加分

爲什麼要考 AP 考試

通過 AP 考試可以幫助你拿到 4-8 個的大學學分

如果你在一年內通過三個(或以上)AP的考試,你可以得到AP scholar 的證明及榮譽

AP 考試 的型式及計分方式

AP 考試 的型式通常分爲書寫部分(written section)及選擇題(multiple choice section);語言的 AP 考試另加聽及說的部分

AP 考試的計分方式通常以五分爲滿分

- 5 Extremely well qualified* 非常合格
- 4 Well qualified* 合格
- 3 Qualified* 剛好合格
- 2 Possibly qualified* 接近合格
- 1 No recommendation** 不推荐
- *合格獲得大學學分
- **不建議獲得大學學分
- ※AP 考試答錯有倒扣,倒扣的分數是題目本身的¼ or 1/3 分不等,但是如果不做答,則不倒扣
